LETTER FROM OHIO CO. BOY

Now in the United States
Navy

Clifton Lee Stevens Writes of
Voyage to Europe With
Atlantic Squadron.

U. S. S. Louisiana,
Postmaster, New York, N. Y.
June 27, 1911.

Editor Hartford Republican,

Dear Sir:—As I feel perhaps it would be interesting to my friends and people of Ohio county, Ky., to read and know of the cruise being made by the ships of the second division of the Atlantic fleet of the United States Navy, I will make an attempt to give a brief sketch of the European cruises made since my enlistment in the Navy.

On July 5, 1910, at Norfolk, Va., I enlisted in the service, and after remaining at the Norfolk Training Station, until October 28, 1910, I was drafted to the U. S. S. Louisiana battleship. On the morning of November 2, 1910, the Atlantic fleet got under way on route to Cherbourg, France. After being at sea for three weeks, the fleet consisting of sixteen battleships came to anchor on November 23, in the harbor of Cherbourg, France. Leave being granted crew on board ships. Many blue jackets visited Paris, France, all reporting a fine time as a hearty welcome was extended to "The Boys in Blue" in the city.

At 6:00 a. m., December 8, the fleet weighed anchor and got underway on route to Portland, England.

On the following day the fleet came to anchor off Waymouth Fort, distant about 3 miles from Portland, England. As anchors were let down a salute was fired with the English Ensign at the main. The salute was returned by the fort.

Liberty being granted as before and giving men an opportunity to visit London, England, many men grasped it and visited the city of London, returning in five days.

On the morning of December 30, 1910, the fleet steaming out of Portland Harbor, England, took the well known course across the deep for Guantanamo Bay, Cuba.

After being eighteen days at sea the fleet arrived on the 17th of the following month in the bay of Guantanamo Bay, Cuba. The men of the regular baseball teams were kept busy playing ball most of the time after the arrival of the fleet in Cuba, as they played daily, not mentioning the track teams and swimming parties that left the ship during the day.

The Atlantic fleet remained in Guantanamo Bay, Cuba, until March 6, 1911, when the fleet got under way for the navy yards at Norfolk, Va., after reaching Norfolk, Va., March 10, and remaining in dry-dock for three days, the fleet left for the Southern Drill Grounds to proceed with battle practice. A very high score was made by each ship this year and after completing battle practice the second division came back to the navy yards at Norfolk, Va., while the other division left for other parts along the Atlantic Coast.

At 6:00 a. m., May 8, 1911, the second division got under way steaming in column, natural order, enroute from Norfolk, Va., to Copenhagen, Denmark. As we let go anchor in the harbor of Copenhagen at about 9:30 a. m., May 25, 1911, a national salute of 21 guns was fired with the Danish flag at the main. It was returned—gun for gun—by the fort on shore. At noon the Commander of the second division, U. S. Atlantic Fleet, left the ship for the purpose of making official calls. At 3:20 p. m. the American Minister called officially and upon his departure a salute of 15 guns was fired with the American Ensign at the fore, and at 3:40 p. m. the ship was visited by the Danish Minister of Marine and a salute of 17 guns with the Danish flag at the fore was fired in his honor.

On May 29th, all the ships of the second division were dressed in honor of H. M. King Frederick, of Denmark, who, accompanied by relatives, came on board at 8:30 a. m. As

the King came on board, the ships of the second division fired a salute of 27 guns. The King accompanied by his relatives, the Commander of the second division and the Commanding officers of all the ships, inspected the ship and crew.

On the evening of the 28th the Louisiana and New Hampshire base ball teams played an exhibition game of baseball. Score 12 to 5 in favor of Louisiana. The winning team was presented with a Silver cup by the Daily Politikon.

On May 30th the Louisiana rifle team went ashore and fired with the crack marksmen from the Danish Army. The Louisiana's team made the highest score and each member of the team was presented with a silver cup by the Danish War Department.

After a most enjoyable visit of the week the second division, at 6 a. m., June 1st, got under way and stood out of the harbor enroute to Stockholm, Sweden, steaming in column, natural order. At 11:07 on the morning of June 3, 1911 the second division came to anchor off Oscar Fredrick distance about twelve miles from Stockholm Sweden.

On June 8th, the ships of the second division dressed ship in honor of H. M. King Gustav U. of Sweden, who accompanied by relatives, visited the ship.

A salute of twenty one guns was fired in his honor.

The baseball teams at the Louisiana and Kansas went ashore and played an exhibition game of baseball. Score 9 to 5 in favor of the Louisiana. The winning team was presented with a silver loving cup.

Stockholm is a city of some 350,000 population and is said to be one of the most beautiful cities of Europe. It is the place of residence of the Royal family. The city is located partly on islands and partly on mainland where the Water Lake joins the Baltic.

At 6:00 a. m., June 10, 1911, the second division got under way steaming in column, natural order, enroute from Stockholm, Sweden to Cronstadt, Russia. At 8:40 p. m., one flotilla, consisting of seven Torpedo Boat Destroyers, were sighted for the purpose of escorting us in to port.

At 9:16 p. m. a Russian torpedo boat came alongside and a Russian Naval Officer boarded the Louisiana to act as pilot; he was accompanied by a wireless operator and a quartermaster from the Russian Navy.

On the 15 of June the ships of the second division were dressed in honor of Emperor Nicholas II, of Russia and as the Royal Yacht was sighted all the ships fired a national salute of 31 guns. At 3:10 p. m. the Royal Yacht "Standart" flying the Standard of the Emperor of Russia, anchored, the Russian cruisers in the harbor fired salutes of 31 guns, and at 3:15 the Emperor came on board. He was received by the full Marine Guard at present arms, 4 rifles were sounded, six cheers given by crew and the band played the national air of Russia. The Emperor accompanied by his relatives, the Commander of the second division and the Captains of all the ships, inspected the ship and crew. T

The Russians:—The Russian crowd is at best, dull looking crowd, a pale-faced, untidy crowd, with long faded blond hair and yellow beards. The driver of a Russian droshki—in his everlasting faded blue long coat, with his "Happy Hooligan" hat over his grey blue eyes and bushy beard, sitting on the box seat of his droshki—looks like a big green pumpkin with a pin stuck in it. Everyone in St. Petersburg wears a uniform of some sort, the initiated can immediately tell a man's calling by the uniform he wears.

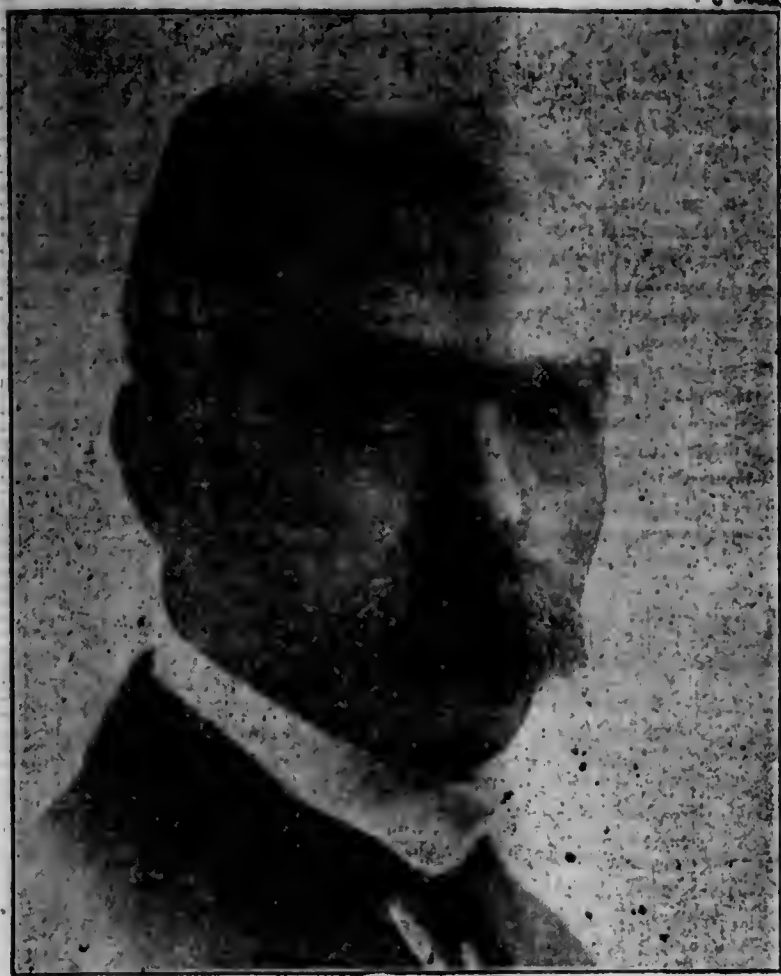

At 6:00 a. m., June 18, 1911, the second division got under way steaming in column, natural order, enroute from Cronstadt, Russia to Kiel Germany.

At 6:00 p. m., June 22, 1911, the second division came to anchor in the harbor of Kiel, Germany, where it is at the present time. The Emperor of Germany will make a salute of 33 guns on coming aboard.

The second division will get underway steaming in column, natural order, enroute from Kiel, Germany, to Provincetown, Mass., June 30, 1911. As I have described the two cruises I mentioned in the beginning to the best of my knowledge of the different foreign ports visited by the division and the happenings and movements made by the ships.

COMPANY H. WILL GO TO ENCAMPMENT

At Orell Station July 21—Last
Five Days Devoted to
Rifle Practice.

The Third Regiment K. S. G. will go into camp on Thursday, July 21st. The first five days of the encampment will be devoted to military instruction, other than small arms practice, and the last five days will be spent in training the men upon the rifle range. The target firing will be so conducted that every enlisted man of the same class (qualifications) half be required to fire as near as possible, the same number of shots.

The last two days of the Regimental shoot only those who have qualified as "marksmen" with a score aggregate of 120 will be allowed to shoot.

The State Rifle competition will be held at the Orell Range from July 31st to August 18th. Any member of the Guard who qualifies as "Expert Rifleman" during the Regimental practice, will be eligible to enter the competition shoot, provided he has performed 75 per cent. of the military duty during the preceding twelve months.

During the period from July 31 to August 18th, two competitions will be held a preliminary and a final. Out of the list of those who enter the preliminary competition, the twenty five best scores will be retained to shoot in the final competition, the other members being sent home immediately. Out of this list of twenty-five, the fifteen best shots will be selected to constitute the State Rifle Team. This team will go to Camp Perry, Ohio, on August 23rd to represent Kentucky in the National Matches to be held there.

The promise of a lease on a rifle range near Hartford has been secured and a report regarding its construction forwarded to the Adjutant General. If the report meets with approval the range will be put into shape immediately, and the members of Co. "H" will shoot, possibly the latter part of next week. Last year the local Company held fourth place among the thirty Companies of the Kentucky Guard, as regards the number of members who "qualified" on the Rifle Range. It is expected that the Company will develop a number of good "shots" and will have a good representation in the State Rifle Team.

HARD TACK IS HARD HIT AND DISCARDED

Ration in Use for More Than a
Century Gives Way in Army
to New Field Bread.

Washington, D. C., July 5.—Hard tack, the main part of the ration of this United States soldier from the days of the revolution is no more. It has been banished and hereafter, except on the rarest occasions, will be substituted the new "field bread."

The rare occasions on which hard tack will be used are purely emergencies, when an organization is cut off from the supply train or is on a forced march.

In all tales of valor the humble and homely hard tack played a prominent part. It has since the beginning of the country also borne the brunt of many jokes. In the army it has been the cause of desertions, violations of rules and regulations and the cause of men "dying in the mill" (serving a term in the guard house).

What is hard tack? It is an unleavened cracker about three inches square and of about an eighth of an inch in thickness. It is hard, so hard that a trooper can carry it in his saddle pockets with horse shoes, horse shoe nails and a hammer and subject it to the severest jolting while riding at a hard and long trot without breaking it. But it is nutritious.

Hard tack is made of flour, salt and water. Yeast as a part of it was never known. The flour, water and salt are mixed together, kneaded stiff, rolled out to proper thickness and then cut into squares. It is then stamped with a perforator and then put in the oven and baked slowly. When it is taken from the oven it is allowed to cool slowly, thus hardening it still more. It is then packed in boxes or barrels.

Hard tack will stand the rigors of any climate. True much of the hard tack stored in the pyramid of Manila was mouldy, but the mould was only on the outside and could be wiped off and was wiped off with a handkerchief.

The new field bread is a small loaf of good baked bread, containing flour, water, salt and yeast and permitted to rise.

county, on August 28, when his case of Mrs. Louella Lynch, charged with the murder of her son-in-law, Amble Buck, will be tried for the second time by a Daviess county jury.

Kentuckian was President of U. S. for a Day.

Frogtown, Ky., has the unique distinction of having been the birthplace of a man who was president of the United States for the space of a single day. He was David R. Atchison, who, as a citizen of Missouri, served in the national senate under Polk and Taylor and Pierce and for whom the town of Atchison, in Kansas, was named. In those times the president pro tem. of the senate was in line for the presidency, in case there were no president or vice-president of the United States. March 4, 1849, fell upon Sunday. Gen. Taylor was due to be inaugurated president on that day, but because it was Sunday he refused to be inaugurated till the next day, nor did he take the oath of office till the ceremony of inauguration occurred March 6, in front of the capitol. Hence Senator Atchison, who was at that time president pro tem. of the senate, by this peculiar combination of circumstances became president of the United States de jure from one hour of noon on March 4th to the hour of inauguration on the day following. Atchison lived many years after his retirement from the senate and was careful to have this incident incorporated.—He died in 1886.

Attorney Woodward Explains.

1111 Second St., Louisville, Ky.
July 8, 1911.

Editors Republican, Hartford, Ky.—My attention has just been called to a statement in your issue of June 30th, wherein, the payment of certain money to State Inspector by former officers is commented on.

In every county in the State it was the practice of the County officers to "suspend" the collection of fines in cases seeming to call for such clemency. As County Attorney I instructed Judge Taylor, Trustee Y. L. Mosley and the Sheriff, R. B. Martin to accept art payments rather than imprison a man who wanted to pay his fine, and not to report until fine was collected.

On final checking up it developed that the County Judge Taylor, Sheriff R. B. Martin, Trustee Y. L. Mosley and myself had about \$100 of unreported fines of which amount more than one half had been collected by me, and all of it at my suggestion in small payments.

I know the article was not meant to reflect to anyone and personally I did not care about it, but being in a measure responsible for the entire matter, I desire to publicly explain the matter as it affected Messrs. Taylor, Mosley and Martin.

Orchestra for Hartford.

An Orchestra has been organized for Hartford called the Hartford Mandolin and Guitar Club, with the following members: Emory Schroeter, 1st violin; Trimble Pendleton, 2nd violin; R. D. Walker and Edward Mischke, mandolin; Jesse Schroeter and Estil Park, guitar; Herbert Sanders, bass violin; Arthur Petty, drummer.

Given Life Sentence.

Hopkinsville, Ky., July 8.—At noon the jury in the case of Herbert Cobb, who shot and killed his sweetheart, Miss Ella Cravens, on the night of May 20, returned a verdict finding Cobb guilty and fixing his punishment at life imprisonment.

The jury took the case late yesterday afternoon, and had been sitting ever since, standing nine for a life term, one for manslaughter or twenty one years and two for death.

The case had been on trial all week, a special term of court being held to hear it, and wide interest was manifested. Cobb expressed himself as satisfied with the verdict.

Dr. Harbin Elected.

Elizabethtown, Ky., July 8.—The Rev. E. O. Harbin, of Louisville, was elected president of the Epworth League at the close of four-day session here yesterday. Reports of various committees were read yesterday, and Hopkinsville was chosen as the next meeting place. The meeting here was declared the best ever held by the Louisville Conference.

Woman is 108 Years Old.

Owensville, Ind., July 10.—Mrs. Mary Hamilton, age 108, of near East Mount Carmel, is believed to be the oldest person in southern Indiana.

She laughs at Dr. Osler's theory that a person of fifty has passed the period of usefulness in this world and her interests in home affairs show her age has no terrors for her. Mrs. Hamilton cooks, sweeps and does general housework.

Mrs. Hamilton recently expressed a wish to visit her son, Mashir Hamilton, living west of Owensville. A two-horse wagon was the only means of conveyance at her disposal, and having planned the visit Mrs. Hamilton climbed into the wagon and jolted over the dusty road ten miles to her son's home.

Elopers Nearly Tell All.

Kansas City, Mo., July 12.—There's an old saying that "a guilty conscience needs no accuser." It was demonstrated on an Observation ark car the other night shortly after it left the Union depot.

They were a trim young couple, inconspicuous, though well dressed, and as a matter of fact no one paid much attention to them. Their grips proved that they had been traveling, as did the fact that they got on at the Union depot, and anyone who had chanced to observe them would have judged them as they proved them to be newly married couple. Only it wasn't billed to come off as it did.

It just happened that the big policeman got on the same car, and as the eye well, when there is no particular place to direct it and there is a pretty girl in sight, the policeman's lighted directly upon the young pair. The girl was first to notice it, and she quickly called the young man's attention. He saw the officer. Then they both, boy and girl, tried to appear disinterested. They tried to look out of the window, but their glances invariably came back to the officer. He began to get interested. Then as if to assure him at least the propriety of the affair she pulled off the glove from her left hand, meaning to have it appear quite inadvertent, of course, and disclosed a diamond solitaire with its accompanying wedding band. Finally she couldn't stand the strain of the patrolman's gaze and she half whispered:

"Do you suppose he knows, dear?"
"No," the youth asserted boldly, but with an expression that belied his sincerity. "The folks haven't had time to let them know even if they've found it out."

Which reassured her a little and she laughed as she looked away. But the climax came when it so happened that the officer got off on Twelfth street, just as they alighted.

"Oh, honey, he is coming," she cried in real fright. "Shall we tell him that we'll telegraph to the folks right away?"

And "Honey" was right on the verge of doing it when the officer, unmindful of the little comedy, walked away quite unconcerned in an opposite direction.

FRIDAY, JULY 14.

Many of the Hartford church-goers
are taking their annual vacations.

Would we call murder in Chicago
a leading industry or would you say
that it is a pastime?

There is a Chicago woman who
wants to get rid of her husband
whom she won on a bet. The moral
is: never bet.

Some one says that there are just
as many gamblers on a dollar bill as on
a fly. Well, we sweat the dollar bill,
too, whenever we can reach it.

The fellow that goes after business
the hardest is the one who gets it.
People eat as much and wear as much
as they ever did. If you are not sell-
ing them perhaps you have not push-
ed your business as hard as the other
fellow.

In another column of this issue
will be found a letter from Attorney
E. M. Woodward, which we gladly
publish. It is about the recent visit
in Hartford of a State examiner,
who went over the public records
at the Court House. Mr. Woodward
explains how the very small short-
age came up, and writes a letter
that it may be clear to everyone,
although we hardly think it necessary
for for no one ever questioned the
gentlemen whom Mr. Woodward men-
tions.

Men who do a town more harm
than good are classified as follows:
First, those who oppose improvement.
Second, those who run it down to
strangers. Third, those who never
admit their business. Fourth, those
who show no hospitality to any one.
Sixth, those who hate to see others
make money. Seventh, those who
oppose every movement that does not
originate with themselves. Eighth,
those who put on long faces when a
stranger speaks of locating in their
town. Ninth, those who oppose every
public enterprise, which does not ap-
pear of personal benefit to themselves.

It does not pay to advertise
some merchants who have done but
little of it and that without long-
ing it up. The incident of the boy and
the pump illustrates the matter very
well. The boy was sent after a pail
of water. He found it in the printing
and poured out as much as he poured
in. Then he stopped to rest and the
printing ran down. After some time
of alternate pumping and resting he
concluded it did not pay to pump
and quit in disgust. The merchant
who does not believe in advertising
does like the boy who did the pump-
ing. He advertised a few weeks, then
stopped a while and allowed the pub-
lic to forget him and his business be-
fore he advertised again and then
concluded advertising didn't pay.

SUPERIORITY HURTS.

Under the head line "The Steam
Roller moved Nasty," the Hartford
Herald in a humorous way attempts
to criticize the conduct of the Repub-
lican Mass Convention held at the
court house in Hartford, last Satur-
day.

It finds fault with the fact that
the convention was practically unani-
mous for O'Rear for Governor. The
truth of the matter is that Judge
O'Rear has been the choice of Repub-
licans as well as many Democrats
in Ohio county for Governor ever
since his name was first mention-
ed in connection with that office,
and the fact that his opponent re-
ceived so few votes in the conven-
tion is no fault of any Republican in
Ohio county, nor was it due to any
domination of the party by any in-
dividual or combination of individ-
uals. His superiority as a statesman
and as a leader has long been ap-
preciated by the people, not only of
Ohio county, but by the people of
the entire State, and his magnani-
mous endorsement by the Ohio Coun-
ty Republican Convention was only a
manifestation of the high esteem in
which he is held.

The fact that Judge O'Rear stands
head and shoulders in point of abil-
ity and adaptability to the office,
above a certain other nominee for
governor of Kentucky, is the thing
that helps the hurt which our es-
teemed contemporary feels on account
of the harmonious convention of the
Ohio county Republicans.

The Herald's comment relative to

the motion for endorsement of Hon.
E. T. Franks made by Mr. J. H.
Thomas, is far-fetched and ridiculous.
The same Mr. Thomas who made
the motion for such endorsement was
a member of the resolutions commit-
tee which drafted and unanimously
reported the resolutions endorsing
O'Rear for governor. Our old friend
Silas Stevens comes in for his por-
tion of censure because he was able
to name five Republicans from among
the four or five hundred present as
a resolution committee. Everyone
who knows Silas Stevens knows that
he would not be a party to any domi-
nation of Republicans, or any body
of people.

The truth of the whole matter is
the Herald is simply seeking some
pretext to check the tide of popular
approval of O'Rear for governor and
if the people can be inclined to the
delusion that the convention of Ohio
county Republicans that endorsed him
for governor was dominated to ac-
complish that end it hopes its pur-
pose has been subverted. How ab-
surd such a proposition is can be
determined by your taking a census
of the O'Rear and Anti-O'Rear citi-
zens of your community. The people
of Ohio county are and were over-
whelmingly in favor of O'Rear for
governor and the result of the con-
vention last Saturday was a simple
expression of their choice.

Good Show This Week.

The Hal Warren Co. has a special
engagement at Dr. Bean's Opera
house for the remainder of the week,
having begun their engagement here
Wednesday night. Their perform-
ances are splendid, the entertainment
consisting of eccentric "Silly Kid"
and black face monologues, songs and
comedy sketches.

Several here saw the company at
Dawson Springs a few weeks ago and
recommended the performances highly.
In addition to the program by the
Warren Company new moving picture
will be shown each evening.

Centertown Collegiate Institute.

Ground was broken last Tuesday
morning for the new school building
for Centertown. The building will
be two stories in height and of pressed
brick and stone, furnished in the
latest modern style.

It will be located on the south side
of town, easily accessible by good
broad streets, on a nice elevation
and at the edge of a fine grove that
has been reserved for public purposes.
The contract for the erection and
completion of the building has been
let to Messrs. T. S. Marks, of this city,
and C. M. Taylor, of Beaver Dam.
The estimate cost including the fur-
nishings is \$5,000. This is certainly
a worthy effort that is being put
forth by the good people of Centertown.
Let every citizen rally to the
support of the trustees in this under-
taking and strive to make Centertown
an educational center in Ohio
County and Western Kentucky.

Stocking Rivers with Fish.

Columbus, O., July 11.—Millions of
bass from the government fisheries at
Northville, Mich., are to be dumped
into the streams of the Ohio during
the next two or three months.
The first shipment arrived in Colum-
bus yesterday and were dumped into
the Scioto river just north of this city.
Next week several million more are
to be sent to the state and will be
dumped into the Muskingum river,
near Zanesville, and in the Ohio
river below Portsmouth, and still
more in the Miami and Maumee riv-
ers. There will be some great fish-
ing in the streams of the Ohio (when
all these small dinky tribes grow to a

CO. MASS CONVENTION HELD HERE SATURDAY

Delegates Instructed for O'Rear
and A. S. Bennett-Leach Nom-
inated for Representative.

One of the most enthusiastic and
representative conventions ever held
in Hartford was held at the court
house Saturday afternoon. The con-
vention was composed of the leading
Republicans of the county and rep-
resentatives from every part of the
county. The meeting was called to
order by County Chairman R. B.
Martin who stated the purpose of the
convention. S. L. Stevens, of Cron-
well, was selected as temporary chair-
man and J. Ney Foster as temporary
secretary, both of whom were after-
ward selected as permanent chair-
man and secretary of the county mas
convention, and also the Delegated
Convention, which was held later to
nominate a candidate for Representa-
tive from Ohio county.

Chairman Stevens made a splen-
did talk upon taking the chair. His
remarks were wisely spoken and very
timely. (The next to come before the
convention was the appointment of
the Committee on Resolutions, and
the following were appointed by Mr.
Stevens: M. L. Heavrin, W. S. Tins-
ley, S. A. Anderson, John H. Thom-
as and T. H. Benton. While the
committee was absent in getting up
the resolutions, the conventions was
addressed by Judge R. R. Wedding
and Col. C. M. Barnett.

The Committee on Resolutions en-
dorsed the State and National admin-
istrations, the course of Senator W.
O. Bradley and recommended Judge
E. C. O'Rear for Governor, and Hon.
Alvis S. Bennett, of Ohio county, for
Clerk of the Court of Appeals, and
thirty-three delegates and as many
alternates to the State convention at
Louisville July 11 were named. Upon
the reading of the resolution a motion
was made by Mr. John Henry Thom-
as to substitute the name of Hon. E.
T. Franks for the name of Judge
O'Rear for Governor. A vote was tak-
en upon this motion, which lost. (The
Resolutions were then adopted. The
county mass convention then adjourned
and the Delegate Convention was
called by Chairman Martin.

The same chairman and secretary
were retained for the delegate con-
vention, and upon motion a Commit-
tee on Credentials was appointed as
follows: T. H. Benton, M. L. Heav-
rin and T. W. Stratton. A read-
ing of the credentials and calling of
the precincts of the county showed
that Mr. Albert Leach, of Beaver
Dam, had received a total of 71 1-2
votes and Mr. C. P. Keown had
received 51 1-2 votes. Sixty eight
votes being necessary to a choice, Mr.
Leach was declared the nominee and
accepted the nomination with a few
words of thanks and appreciation.
Convention adjourned.

An Unknown Tongue.

A young man just returned from
college was out cycling one day when
suddenly he came to a steep gradient.
While he was descending the last con-
trol of his machine and was thrown.

Two men came and found him ly-
ing in that predicament. When asked
how it happened he replied: "Well
I came down that decline with the
greatest velocity and lost my central
gravity and was precipitated on the
hard macadamized road."

"Away, lad, let him alone," replied
one of the men. "He's a foreigner."

Acme Lodge 1. O. O. F. will have an interesting meeting this evening. Work in two degrees, and other business of special importance. All members are requested to be present. Visiting brothers welcome.

A singing convention will be held at Clear Run Church on the fifth Sunday in July. All singers and chorists are invited to take part. Everyone is asked to furnish their own lunch, as this has been the custom for this occasion for the past eleven years.

Company H. held its regular drill here Sunday night, under the command and supervision of Capt. DeWesse and Lieut. Shown. The boys are making preparations to leave next Thursday for their annual encampment, which this year is held at Ord, near Louisville.

Ohio county was given a nice honor at the State Republican Committee at Louisville this week when Hon. M. L. Heavrin was selected as temporary secretary of the convention, and later made permanent secretary, and Col. C. M. Barnett was placed upon the Committee on Resolutions, of which Congressman Langley was chairman.

Mr. George Williams, of Chicago, arrived Saturday afternoon to spend a few days here visiting friends and relatives. For nearly five years he has been connected with a large candy manufactory in that city, and has a splendid position. His brother, John J. is also with the same firm, but was unable to get a vacation at this time.

Quite a number of Republicans from Ohio county went to Louisville the first of the week to attend the State Convention. Among those who attended were: Postmaster E. P. Taylor and J. A. Leach, of Beaver Dam; Dr. S. P. Park, of Rockport; Col. C. M. Barnett, R. B. Martin, S. A. Anderson, J. Noy Foster, C. O. Hunter, T. H. Black, Dudley Morris, W. S. Tinsley, E. G. Barrass and C. E. Smith, Hartford, and S. L. Stevens, of Cronwell.

A layette was given Tuesday evening for the young ladies by some of the Hartford boys. The party went to Goshen church where a dandy lunch was served by the girls, then back to Hartford via Beaver Dam. Mr. and Mrs. Otto Martin acted as chaperones. In the party besides the chaperones were: Misses Beatrice Haynes, Anne Dudley, Ruth Riley, Nettie Riley, Early May Magan, Lela Magan, Mary Spaulding, Ozona Mosley, Alice Keown, Daisy Wedding, Annie A. Elgin, Anna E. Keown, Winona Stevens, Fanny Whittinghill; Messrs. George Williams, of Chicago; Raymer Tinsley, Allison Barnett, Trimbble Pendleton, Clarence Barnard, Estill Park, Lewis Riley, Sydney Williams, McHenry Holbrook, McDowell Fogle, Cassius Spaulding.

Solves a Deep Mystery.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Louisville, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them. Every bottle is guaranteed to satisfy. Only 50¢ at all druggists.

MILITARY BURIAL FOR MAINE AND SAILORS

Bodies of Crew of Wrecked War ship Which May be Found Will be Interred.

Washington, D. C., July 9.—Arrival of a body for the victims of the battle-ship Maine and the wreck itself appears to be assured. The purpose of ascertaining just how much of the wreck can be removed at one time a meeting of several officers and Brigadier General Bixby, chief of engineers of the army, was held.

The naval officers informed General Bixby that it was their desire to have the wreck buried in one spot and, if possible, to hold a naval demonstration at the time. General Bixby told them his observations while at Havana led him to believe that the greater part of the vessel could be towed to a proper burial ground. He has promised to keep them informed as to the condition of the hull of the ship as the water in the cofferdam is lowered.

As fast as any remains of the victims of the disaster are recovered they will be placed in coffins and made ready for burial in Arlington National cemetery here. All of the remains will be buried at the same time.

Cuba is arranging to pay a tribute to the sailors whose lives were sacrificed in the destruction of the battle-ship Maine. President Gomez has issued a decree ordering a special demonstration of sympathy throughout the republic as soon as Havana harbor gives up the dead. Flags of all the public buildings in Cuba and ships in Havana harbor will fly at half mast and guns of the shore batteries will be fired at half-minute intervals for an entire day over the historic scene of the wreck, which, whether caused by an outside explosion, had much to do with the clash of arms that freed Cuba.

There is doubt, however, as to whether Cuba will be given an opportunity to make this sympathetic demonstration, as many army and navy officers believe that no honors will be found in the present operation of uncovering the wreck.

Madrid, July 7.—All the papers print to-day the statement of Brigadier General William H. Bixby, chief of engineers, U. S. A., that he believed that the destruction of the battle-ship Maine in Havana harbor was caused by the explosion of her magazines and not by an external force.

The A. B. C., in commenting upon the statement, says that it will be shown that, although Spain had to give up her American possession, she has not been dishonored.

Base Ball News

Hartford took another game Saturday afternoon, when Taylor Mines was defeated to a score of 13 to 7. Where you saw this team say that Taylor Mines was not entitled to a single score, and they made their scores in the fifth inning, when the umpire gave some bad decisions, so the locals thought, and then Hartford did not try to play ball. The score: 1 2 3 4 5 6 7 8 9 T
Hartford 4 4 4 5 0 0 4 0 x 18
T. Mines 0 0 0 0 0 1 0 0 6 7
Umpire: J. A. Leach, of Beaver Dam.

This Roy had on her playing clothes Saturday afternoon and moped up on the creek with a score of 15 to 5. Game played at Hartford before the Hartford-Taylor Mines game.

Barrett struck out 11 men, and Williams and Durham together struck out 2 of the locals.

HUNTER GETTING UP STEAM.

Barrett and Barrett were star batsmen Saturday afternoon, and all the teams were proud of them.

Virgil Bigh is a new addition to the Hartford aggregation, and plays good ball for a fellow who has not played for years.

In the game at Central City Sunday afternoon the Henderson team defeated Clarksville, Tenn., 6 to 5.

The locals have lost only 3 games this season and have won 8. They have not lost a single game when played on home grounds.

Harry Dudley Walker is another young man who likes our "dope" and tells us he reads it every week.

It appears that Louisville, in the American Association, has taken on a little life here of late, for she is playing better in the last few games.

Alfred Sanderfer, of near Beaver Dam, called to see us Saturday, and told us that our baseball game was read by everyone in his neighborhood. Many thanks.

Chas. Chandler says he is feeling much better and has blood in his eyes and wants to get a real good game for this team for Saturday afternoon. He is making an effort to secure a game with Beaver Dam or Middlesboro. We hope the locals will get to play both of the visitors at an early date for we do not believe they can beat the locals any more.

Most Maddening is the Borrowers

Of all the maddening people in the world women who borrow things are the worst. They are the shiftheads on the earth, those who live off others, and as long as they can borrow from others they will never take the trouble to acquire anything. For themselves or to take care of or keep in order anything.

Sometimes it will be found that women borrow because they have not the means to buy. As a rule, they are poor because they are wasteful, and they will squander as readily the things they borrow as they have already destroyed their own things.

People with "hard hands" rarely amount to anything. Beware of trusting in important matters the woman who is forever smashing teacups, taking the handles off baskets, the handles off pins, scratching and cutting furniture, blunting scissors, etc. She has not the saving, preserving instinct and will not know how to look after your interests any more than she has the instinctive things in her charge.

There are some that build and some that tear down in this world, and these who can take something bad and make it into something good are the ones to cling to, not vice versa.

Borrowers, as a rule, belong to the destroying class. They are shiftless and mentally lazy, so they do not like to go to the trouble of thinking beforehand as to whether they have the necessary things.

They prefer to depend on some neighbor, whose brain consequently has to work for both.

Nothing is more discouraging, indeed, than to be a good provider, an orderly person, and go to your desk or shelf or closet at a certain time, expecting to find a certain article, only to find it missing because it has been borrowed, or worse still, out of working order or broken.

Borrowers should be worse than discouraged; they should be "cut out" entirely from one's acquaintance. —Louisville Herald.

TREASURE CHEST IS UNCOVERED BY BOYS

Search for Other Possessions of Wilderness Recluse is Begun.

Covey, Mich., July 10.—A romance of the days when much of the state of Michigan was a wilderness was brought to light today when boys of the South Bend, (Ind.) Y. M. C. A. summer camp, while digging a hole for a flagstaff, brought up a rusty iron box, containing pistols, books and several documents.

The lock could not be opened, so the bottom of the chest was broken. First the discoverers found two rusty pistols of an ancient pattern, resting in a bed of flax. Then followed a motley collection, including a plain gold ring, apparently the wedding pledge of some pioneer bride; a silver-cased watch of Swiss manufacture; a small dagger and a rust stained hunting knife; leather-bound books dating from 1767 to 1819, among them a Bible, "Children of the Abbey," and "Book of Passion." There were several school books and a number of pennies bearing dates from 1781 to 1854; samples of silver, lead and copper ores, arrow heads, and a collection of pebbles. Deeds dating back as far as 1739 related to property at Plymouth, Conn.

An explanation of the mystery was found in a letter left by the owner of the chest, in part as follows:

"This chest is the property of Heslik Thomas formerly of New England, later of the Michigan wilderness. A spiritualist of God, believing, and my spirit still roams over these lakes in the full moon seasons, guarding all my valuable deposited possessions, for they are many and varied. God gave many wonderful secrets but because of the great sin, He took them all away but one—the least of them—the turning of sable stones into gold. I have buried this secret by the body of old Duckwing in the big swamp. God rest my soul. God has filled the earth with gold. Devils do not believe it, but has He not promised, 'Seek and find?' The blue heron is wise, and the night owl, but man is an ass, for he walketh not in the ways of the most high."

A little of the story of the peculiar old hermit is known here. George Knevels, who lives in a portion of a house built by Thomas, says that as a boy he recollects finding carefully secreted collections of pebbles in the house. It is said that Thomas' wife deserted him, and that his queerness became noticeable about the same time. He roamed the woods, talking to the trees and animals, and believed that he could transmute certain stones into gold.

According to another letter found in the box, there is another chest buried on the island. A map, which was among the contents, gave directions for finding this chest. The whole neighborhood is excited over a search, immediately begun, for the remaining chests.

Desert Farm for City.

Washington, D. C., July 7.—The people of the United States are steadily deserting the country and the farm for the turmoil and delights of the city and town, according to statistics made public today by the census bureau. During the past ten years the percentage of people living in cities or other incorporated places of more than 2,500 inhabitants increased from 40.5 to 46.3 of the total. Twenty years ago only 36.1 per cent of the total population lived in such incorporated places. In classifying the 1910 census returns the bureau calls that portion of the population in incorporated cities or towns of 2,500 or more inhabitants urban and the remainder rural. On this basis, in 1910, 42,623,383 or 46.3 per cent of the total, lived in urban territory and 49,348,883, or 53.7 per cent, in rural territory.

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and lose several days' time, unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand and take a dose on the first appearance of the disease. For sale by all druggists.

The Injured Finger.

Every one knows that disfigurement and sometimes amputation sometimes follow the bruising of the fingers. Worse still, at times the injury results in an unsightly finger nail, until the blackening disappears. Now, the next time you squeeze your fingers in the door or hit them

when you aim for the head of a tack seat yourself on a chair in front of a stationary wash stand and hold your hand under the cold water faucet in as nearly an upright position as is possible, and let the cold water run on the injured member for nearly an hour. If the water gets too cold turn it off for a few minutes, but be sure and keep the hand in the upright position, so that the blood will not run too freely into the bruised portions of the finger and discolor it.

Cold water is nature's own antiseptic. While away camping with a physician and his family, where there oftenly camp in a lovely spot miles away from a drug store, the doctor demonstrated the healing virtues of water in many ways. One day a man bear of the camp had the misfortune to get his hand poisoned by having it cut with the fang of a certain fish. When he came to the doctor for aid his arm was greatly swollen and darkly purple, even above the elbow. The physician washed the wound with small sponges of absorbent cotton saturated with cold spring water, and he also made him keep compresses made of absorbent cotton and cold water over the wound, changing them as soon as they became warm for fresh ones. It was one of the quickest and most satisfactory cures I ever witnessed.

Paint Lick Sick Lady.

Paint Lick, Ky.—Mrs. Mary Freeman, of this place, says: "Before I commenced to take Cardui, I suffered so much from womanly trouble, I was so weak that I was down on my back nearly all the time. Cardui has done me more good than any medicine I ever took in my life." You need not be afraid to take Cardui. It is no new experiment. Composed of gentle-acting, herb ingredients, it has been found to safely relieve headache, backache, and similar female troubles. Try it for your troubles.
